DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-2 are rejected under 35 U.S.C. 102(e) as being anticipated by Chen et al (US Pat. 5,149,090).

Regarding claims 1-2, Chen et al disclose in figure 1, a damping apparatus 10, comprising: a first member 21 joinable to a first object 71; a second member 22 joinable to a second object 71; and a vibration absorbing member 20 installed between the first and second members 21, 22, wherein at least one of the first and second members 21, 22 has elastic hooks 48 that are elastically catchable by respective edge portions of the corresponding object 71 for joining the member 21, 22 to the corresponding object 71 wherein the vibration absorbing member is a rubber member. (column 2, lines 51-52).

Application/Control Number: 10/700,478 Page 3

Art Unit: 2835

Claim Rejections - 35 USC § 103

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negatived by the manner in which the invention was made.

Claim 3 is rejected under 35 U.S.C. 103(a) as being unpatentable over Chen et al (US Pat. 5,149,090) in view of Shinoda et al (US Pat. 4,873,149).

Regarding claim 3, Chen et al disclose all the subject matter of the claimed invention except for one of the first and second members is made of a stainless steel plate plated with nickel substantially preventing effects of electromagnetic interference. However Shinoda et al disclose the first and second members is made of a stainless steel plate plated with nickel (see Shinoda et al's column 4, lines 23-40). Therefore, it would be obvious to one of ordinary skill to utilize the first and second members is made of a stainless steel plate plated with nickel of Shinoda et al into Chen et al's plate in order to prevent effects of vibration-damping.

Allowable Subject Matter

3. Claims 4-5 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Application/Control Number: 10/700,478

Art Unit: 2835

The following is a statement of reasons for the indication of allowable subject matter: the prior art fails to show that one of the first and second objects is a hard disk drive and the other objects is a base plate or that the first and second members are joined to the upper and lower surfaces, respectively of the vibration absorbing member by attaching with an adhesive or insert molding.

Claims 6-10 are allowed.

The following is a statement of reasons for the indication of allowable subject matter: as mentioned above.

Response to Amendment

5. Applicant's arguments filed 11/23/2005 have been fully considered but they are not persuasive. The claimed limitation is broadly interpretation as cited art.

Conclusion

6. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

Application/Control Number: 10/700,478

Art Unit: 2835

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Hung v Duong whose telephone number is 571-272-2041. The examiner can normally be reached on M-F from 8:30 to 5:00PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Lynn Field can be reached on 571-272-2092. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306. Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
